[PLANEKS](#)

## **iFarmer**

A digital platform that connects farmers with buyers, helping improve agricultural value chains in Bangladesh, built with Django.

[PLANEKS](#)

The website that clearly needs no introduction. It was [first built with PHP](#), but rapid audience growth and the necessity to implement new features fast led the team to join the Django community. And the choice was fully justified, as audience growth hasn't stopped (luckily for them), and new features appear very often (luckily for us).

## **Instagram**

A widely used photo and video-sharing social platform that was originally built using Django.

[Django Stars](#)

## **Spotify**

Just like iTunes, Spotify changed the way people listen to, share and purchase music. When using it, you can access your music library everywhere and on any device.

## **Pinterest**

A visual discovery engine for finding ideas like recipes, home and style inspiration, and more.

[Django Stars](#)
